Only 22 Left Out of 72 SENSATIONAL VALUES IN HIGH-GRADE PARLOR SUITES

We doubt whether you have ever had values to equal these offered you before. These Parlor Suites were made to order for a high-class apartment house company in New York which became financially embarrassed before the goods were delivered. Being out of the ordinary class, the manufacturer had difficulty in disposing of them, and was glad to accept our cash offer. The result is that we are able to sell them for a great deal less than they cost to make. They are of the very finest quality and superbly upholstered. We have only twenty-two left, and you will not have a chance like this again in many years. These are not fictitious valuations we have put on them, but what they would actually cost you to buy anywhere else.

SCHOOLS MAY SET ASIDE OLD VACCINATION LAW

Board of Education Believes Regulation Drives Hundreds of Children Into Private Institutions. List of Changes Announced.

The civil war law of 1864, requiring vaccination in the public schools of the District, confronts the board of education again this year, and, at a meeting yesterday a committee, composed of Capt. James F. Oyster, Mrs. Ellen Spencer Mussey, Woodbury Blair, and W. B. Tunnell was appointed to take steps to set aside the law.

Compulsory vaccination has resulted, in the opinion of the board, in driving hundreds of children into the private schools of the city, when their parents often could not afford it.

President Cox, of the school board, spoke earnestly for the introduction of Spanish in the public schools. The young man starting in life, he said, should be able to take advantage of the openings Central and South America offers to-day, and the first step in such a preparation is a working knowledge of Spanish.

Trees for Children.
A communication from Woodward & Lothrop was received, offering the school authorities 50,000 catpaw trees. The offer gives the board the right to use the trees as it likes, but suggests that they be given to school children to take home and plant in their own yards. The catpaw tree was chosen principally because of its rapid growth.

Among the teachers the salary question is causing difficulty. Some time ago it was decided that high school teachers should receive \$1,000 as their first year's salary, with an additional \$100 for each year in service. But previous service in the District was not counted, while teachers from other cities were allowed the benefit of their years' teaching. The old District teachers do not consider this reasonable, and say that they can see nothing to uphold such a law.

Following is a complete list of night schools, teachers, recent appointees, and transfers:

WEATHER CONDITIONS.

U. S. Dept. of Agriculture, Weather Bureau.
Washington, Saturday, Sept. 17, 1910—8 p. m.
A disturbance, accompanied by showers, is now passing along the Upper Lake region. Showers have also fallen between the Rocky Mountains and the Pacific Coast, and on the Florida peninsula. The weather in other sections of the country has been mostly fair.
Comparatively cool weather has continued in Eastern districts. Moreover, another cool wave from the far Northwest has already caused lower temperatures in the Rocky Mountain region and on the Atlantic coast.
The showery condition in the Western Lake region will advance Sunday over the Lower Lakes, and on Monday reach the North Atlantic States. Unsettled conditions will probably also prevail west of the Rockies, while elsewhere generally fair weather is indicated.
Temperatures will rise in the Eastern States Sunday, but it will fall again in the Central valleys Monday and in the North Atlantic States Monday.
The winds along the Atlantic coast will be moderate variable; on the Gulf coast light easterly, becoming variable; on the Lower Lakes moderate southerly, becoming variable; and on the Upper Lakes brisk northerly.
